

Proudly Canadian Industry Leaders

City fiber Canada of Companies has a proven ability to deliver high quality projects across the Globe. We have extensive experience with large scale projects across North America, West Africa, and diverse worldwide locations.

Executive Profiles

Our experience sets us apart. It provides us with a unique perspective. It allows us to draw upon the deep knowledge of experts across many fields when asking ourselves how we can build it better, how we can complete projects more safely, how we can more effectively protect the environment, and how we can better serve the needs of our customers.

With a wide array of knowledge in construction, oil & gas, transportation, resources, and industrial sectors, our senior leadership team is the backbone of our experience and perspective, providing and sharing a vision of collaboration and innovation that propels our clients and partners Forward. Together.

Every member of City Fiber Inc, senior leadership team has over 30 years of experience in construction and business leadership. As an employee-owned company with over 800 shareholders, these individuals are also among our earliest and largest investors.

Vision and Values | Our Vision | Forward Together

Our Mission

Committed to building City Fiber's Lifetime Clients through accountability, innovation, quality, and sustainability.

City Fiber Inc.

Brochure

Executive Summary

City fiber Canada. is a global technology company with more than a decade of leadership experience in Construction. Our strong relationships with subcontractors allow us to invest in partnerships to increase our capacity and complete larger projects. Are you a turn-key solution looking for a partner to complete practical pieces of your project? We have the assets and experience to make sure your work is done right and finished on time.

City Fiber Inc. is committed to providing advanced fiber optic splicing and testing services that guarantee the optimal performance of your telecommunications infrastructure. Our dedication to precision, quality, and customer satisfaction makes us a leader in the fiber optic services industry, trusted by clients to maintain and enhance their network systems.

Advance Fiber Optic Splicing and Testing

City Fiber Inc. specializes in advanced fiber optic splicing and testing, ensuring top-tier performance and reliability for telecommunications networks. Our services are designed to meet the high-speed connectivity demands of modern businesses and communities, leveraging the latest in fiber optic technology.

Advanced Fiber Optic Splicing Services:

Precision Splicing Techniques: Our skilled technicians employ both fusion and mechanical splicing methods to ensure low-loss and high-performance connections, suitable for various network applications.

Customized Fiber Configurations: We tailor fiber optic splicing solutions to meet specific network architecture requirements, optimizing for data speed, bandwidth, and network efficiency.

Seamless Integration: Our splicing services integrate seamlessly with existing network infrastructures, enhancing overall performance and expanding network capabilities.

Comprehensive Fiber Optic Testing Services:

State-of-the-Art Testing Equipment: Utilizing the latest optical testing instruments, such as OTDRs (Optical Time Domain Reflectometers), power meters, and light sources, we provide accurate assessments of fiber optic network health and performance.

In-depth Network Analysis: Our testing procedures include detailed analysis of fiber optic links, identifying and rectifying any issues that could affect network integrity and performance.

Documentation and Certification: We provide comprehensive documentation of the fiber optic network's performance post-splicing and testing, certifying that the infrastructure meets all industry standards and client specifications.

Expertise and Reliability in Fiber Optic Services:

City Fiber Inc. stands out in the field of fiber optic splicing and testing with a team of experts who bring years of experience and a commitment to quality. Our meticulous attention to detail ensures that every fiber optic connection is executed flawlessly.

Key features of our fiber optic services include:

Advanced Technical Skills: Our technicians possess advanced skills in fiber optic splicing and testing, ensuring high-quality connections and network performance.

Rapid Response and Efficient Service: We understand the critical nature of network uptime and offer rapid response services to address and resolve any fiber-related issues promptly.

Long-Term Network Reliability: Through meticulous splicing and comprehensive testing, we ensure the long-term reliability and scalability of your fiber optic network, ready for future technological advancements.
